NOTES AND COMMENT.

President Hoover's suggestion of a moratorium in war debts for a year met with an enthusiastic response. Wheat was up, stocks were up, and apparently everything looked brighter. Congress must assent but there is little likelihood President Hoover was not sure of his ground when he made the proposal. He is not in favor of debt cancellation by any means. This is simply giving the fellow who couldn't pay without actual distress a chance to get his breath before resuming the burden.

The Saskatchewan Wheat Pool has been prevented from appealing the decision of the Saskatchewan Supreme Court that the wheat marketing act of the Saskatchewan legislature was ultra vires of that body. The judge, in granting the injunction, pointed out that such an appeal did not constitute what would appear to be the business of the farmers who supplied wheat to the pool.

That action is being urged against a class of professional agitators which infests the cities of Canada, by deportation, will find almost general approval. It is only a few years since, when \$7 per day was being paid for threshing, that two of these gentlemen located in Champion and managed to make quite a lot of trouble among the men before the police removed them. The jobless men provide better material to work upon, and recruits for bread lines and other forms of charity are gained daily. The fact that these agitators do not need to work in most instances naturally leads to the interference that they are provided with funds from sources unfriendly to Canadian ideals.

The international market is greatly under the influence of the new winter Wheat crop of America, which will be harvested this month. There have been some complaints of damage in Kansas and on the Pacific coast, but generally the crop has prospered in and elsewhere. Mr. W. Bennett has estimated the output at 660,000,000 bushels, this coming with the April official forecast of 653,000,000 bushels, and the official estimate for 1930 of 604,000,000 bushels. First indications of the output of the United States Spring Wheat are some 210,000,000 bushels, making a prospective grand total for the year of 900,000,000 bushels. Home consumption in the United States cannot be reckoned higher than 650,000,000 bushels, so that on this showing America will have a surplus of new wheat for the 1931-32 season of 250,000,000 bushels. And then there are the big reserves held by the Farm Board, at least another 180,000,000 bushels (probably 210,000,000 bushels), which may be marketed in 1932 after the U.S. farmers have had a good chance to sell their new crop. (Broomhall) Searle Grain Report.

Large touring parties are organized to attend the World's Grain Exhibition and Conference at Regina in 1932. Among these are a party of 200 Ohio farmers with their wives and another party of over 100 Australian farmers.

Reserve July 1st for Champion Sports.

Calgary Exhibition Programme Provides Many New Features

A number of new features have been included in this year's Calgary Exhibition and Stampede, the outstanding one being the Grand Live Stock Review to be held Friday morning. Free tickets will be sent to all school children 15 years or under within a radius of 50 miles of Calgary, and teachers residing outside that area may obtain tickets for their students of that age by writing to the exhibition manager. Eight prizes will be given away, four to girls and boys 9 years or over and under 10 years, and four to children 8 years and under. Children under school age will be admitted free to the grounds and tickets will be given to them at the grand stand. Adults will pay the regular admission charge to the grounds, but admission to the grand stand that morning will be free to everyone. The high jump will be judged, also the heavy four and six horse teams and the live stock parade will be the finest ever seen in Calgary. The prizes have been donated follows, — purchased Dartmoor pony from the Prince of Wales Ranch by Burns & Company, Shetland pony by North Star Oil Company, two purebred English setter dogs by the Ontario Laundry Ltd., and a trio of poultry from each of the following, — S. P. Barth, C. J. Ford, K. C., George Corn and Jas. S. Smith. An attendance of at least 20,000 is expected to take part in this program.

Another new feature is the marvellous Bari Chinese exhibition, which was attended by 150,000 people at the Toronto exhibition during the past two years.

The entertainment features include, The Stamps, the greatest of them all; Running Races; Band Contests; Running Parade; the 50th anniversary of the work of the Salvation Army, the Women's Auxiliary, the Young People's League, the Young Timers' Ball, Friday evening; morning Indian Street Parades; and the special feature production "The Fiesta of 1930," with over 600 artists.

Special passenger rates of fare and a quarter will be in force from Saskatchewan, Alberta and B. C. mainland points. Hotel or private room accommodation may be obtained through the free accommodation booth at the C. P. R. station. This outstanding event provides an unique opportunity for a holiday at the exhibition and at Canada's beautiful mountain resorts, Banff and Lake Louise.

Exhibition entries close June 20th and Stampede entries on July 2nd. Exhibition prize lists and Stampede prize lists may be obtained by writing to the exhibition office, Calgary.

The Calgary exhibition and Stampede, to be held July 6th to 11th, will be the greatest combined exhibition and old timers' celebration ever held in the west. The exhibition will include over 6000 entries, including a wonderful exhibit of live stock. The attractions and special features are the best ever arranged for.

The greatest interest is being taken in the 75th birthday celebration of Mr. P. Burns, Alberta's leading stockman, which takes place on the opening day

of the Calgary exhibition and Stampede. Letters are pouring in from near and far from those who will attend the largest birthday party ever held in Canada. Some fifty or sixty thousand people will give him a never-to-be-forgotten ovation in the great stamped parade at 10 o'clock Monday morning, and in the evening at the grandstand the Rt. Hon. R. B. Bennett, Prime Minister of Canada, extends congratulations to Mr. Burns in the presence of some twenty to twenty-five thousand people. His worship, Mayor Davison also has an important duty to perform on behalf of the citizens of Calgary, and everyone present will receive a piece of the largest cake ever made. It is 7' feet high, three tiers, the bottom 8 feet square, and was made as the Calgary plant of the Canadian Bakers Ltd. The icing requires 100 lbs. of icing sugar, whites of 300 Alberta eggs, 300 sugar roses, 200 sugar lilles and 1 three gross of leaves. Ingredients in the cake are 285 lbs. Alberta sugar, 304 lbs. Alberta butter, 380 lbs. Alberta flour, 380 dozen Alberta eggs, 12 lbs. English spices, 1150 lbs. raisins, California and Australia, 200 lbs. Aus-

tralian currents, 100 lbs. English mixed peel, 100 lbs. French cherries, 80 lbs. Ceylon almonds 80 lbs. French walnuts, 120 lbs. Turkish dates, 70 lbs. French assorted candied fruits and 2 lbs. Ontario Salt.

Aim Of Marketing Committee To See That Producers Obtain More Of Value Consumers Pay

Directing its attention to the marketing of farm products, the House of Commons committee on agriculture heard Hon. Robert Weir, Minister of Agriculture, present his suggestions as to how the committee might proceed. He urged that the attention of the committee should be first devoted to the marketing of dairy, bacon and meat products, which could be disposed of more expeditiously than the other elements involved in the problem. Later the committee could take up questions concerned with wheat and cereals.

The first duty of the committee is to see if we can make it possible for the producers to get more of the value which the consumer pays at the present time," he said.

"We are going to committee to attack these problems of marketing without prejudice," said the minister, "and I think it should hear representatives of the private, co-operative and government marketing. It should meet from time to time and discuss the best means of marketing so as to avoid as far as possible the practice of private interests buying consumers' surplus, pricing and holding them for higher values without the producers getting the best value out of them."

What was needed was more education for the public as to what should be produced and at what time it should be marketed, he said.

"We feel we should get the lowest freight rates from the steamship companies, but we cannot expect these companies to do this unless we at disposal only for certain months. If we want cattle carried at the cheapest rate our surplus must be so distributed as to keep up a regular flow of cattle for export," Mr. Weir said.

"Agriculture can only get the most attention to marketing," the minister proceeded. "Education is the work of the provinces, yet we could add to that by bringing one or two men at federal expense and sending them through our agricultural colleges to give lectures on this subject."

The spread between what the farmer receives for his eggs and what the consumer pays occupied the attention of the House of Commons committee on agriculture.

W. A. Brown, chief of the poultry division of the department of agriculture, addressed the committee. He analyzed costs to show that the farmer ordinarily received about 50 per cent of the consumer's price, the remainder going on freight, grading, wholesalers' and retailers' costs.

Another Scientific Discovery

Process To Prevent Fermentation Of Frozen Fruits And Vegetables

Discovery of a process to prevent fermentation of fruits and vegetables frozen in storage, has been announced by scientific and industrial researchers. It has been found that if vegetables are boiled or partially cooked before they are frozen their color and flavor will be preserved until they are eaten. The process, which was found, destroys the enzymes completely and permanently, leaving the vegetables in such a condition that they may be safely frozen and stored in suitable containers, either under quick freezing or exposed to the air.

Roses Bring High Price

Queen Mary sent a bouquet of roses to Christie's auction room for auction, and proceeds to the Royal Alexandra Day Fund. The first bloom auctioned brought \$575. The second one brought \$520, and the one following reaped a succession of \$250 and \$125 offers.

In the far east, the most widely used staple fruit is the persimmon.

"Here is tinned chicken." "And haven't they put the oil in the hot for the poor creature to break through?"—Nagle's Lustige Welt, Berlin.

On the Road To Mandalay

Pacific Coast Salmon Finds Ready Market In Distant Climes

"On the road to Mandalay" and east or west of Suez, also in London, Paris, Berlin and other famous centres, canned and frozen salmon from the Pacific coast was successfully marketed in 1930.

All varieties of Pacific salmon were included in the export shipments, but it was found that market, such as London, more generally preferred in the frozen salmon variety and the steelhead variety.

Most of the shipments were made from Victoria, and were sent to the distant markets in refrigerated ships equipped with cold storage facilities.

For the most, the consignments were in the nature of test shipments, but the company carrying on the business reported gratifying success. It should be noted that the field of shipment will be extended.

Our Forest Production

Total Value For Last Year Estimated At \$219,576,129

Canada's total forest production for the year 1929, as estimated by the Bureau of Statistics, involved an estimated 1,041,417 cubic feet of standing timber and the resulting forest products were valued at \$219,576,129 an increase of 3.1 per cent over the estimated value for 1928.

The cardinal principles of industrial forestry are that the timber be harvested at 65 per cent, we retained for Canada and 95 per cent, was exported in more or less unmanufactured form.

The chief forest products in order of commercial importance were logs and bolts valued at over \$75,000,000, pulpwood at \$75,000,000, and firewood at over \$41,000,000. Heavy railway ties, poles, and square timber had an aggregate value of over \$18,000,000, and constituted the most important of the remaining items.

Artificial Fertilizers

300 Tons Of Fertilizer For Trail Plant Bed Used In First Trial

Plantings In Southern Alberta

Three hundred tons of artificial fertilizer have been used in the sugar beet area of southern Alberta this season, and correspondingly large amounts of manure and other crops in other sections of the Prairie Provinces, according to Dr. E. N. Neidig, director of agriculture for the Consolidated Mining and Smelting Company of Trail. The care of fertilizers which have been cultured as a by-product of smelting operations at the Trail plant were shipped to the Orient early in the year. Dr. Neidig, and tests of its adequacy in the trade between Indians and white men, have been given up the island of Manhattan for beads and trinkets valued at approximately \$24.

Low Wages and Depression

An opinion that the present basic depression is due primarily to wages being too low was expressed at Ottawa by A. R. Mosher, president of the All-Canadian Congress of Labor, in a speech made on the address of Sir Joseph Flavelle, delivered before the Canadian Credit Men's Association and in which he suggested a re-adjustment of wages was necessary for the re-establishment of industry.

A big elephant can lift a tree

showering a marked increase over that of last year. Reports presented at the recent directors' meeting showed that from March 1st to May 2nd, the pool total of 11,700,000 eggs and 1,000,000 eggs and some of the larger branches, at the peak, towards the end of the period, were handling four carloads weekly. "The increase in volume is general all over the province," says the report.

It is estimated that Saskatchewan as a whole is producing more of the product than ever before.

Make Careful Driver

Deafness Is Not A Handicap In Automobile Driving

Deafness is not a handicap but in cases a positive assistance in automobile driving. Dr. Roy H. Glatwick of Boston, told the American Federation of the "Deaf of Hearing" at Chicago. "The deaf or hard of hearing driver is a careful driver, mindful of his defect and making his eyes do the work of his ears." In modern traffic he said, is largely controlled by lights and visible signals rather than by sounds, for extraneous noise prevents audible signals from being accurately heard.

Planning Another Subsolar

Madrid, one of the few European cities to have a skyscraper, plans to build another. The corporation was recently forced to close a big theatre and office building. It would be 15 stories high, or two stories higher than the National Telephone Company's building.

Good Idea But Unattainable

Would Be Complete Cessation Of Book-Publishing For Five Years

The perfect "Five-Year Plan for Literature" would call for a complete cessation of book publishing for the period. Think of it! Five years of freedom from symposiums on what ails us; from books about hard-boiled eggs and their "jams"; from books about the politics of the soil; from third-rate biographies compiled from secondary sources; from novels called the "Red" or "Other Virgin"; from books on the art of the "Red Virgin." Five years in which to return to those books which we all "have been meaning to read"—five years of good things found their way to print before May, 1931. Five years of freedom from saying: "I guess I have to read it"; and from listening to literary conversation consisting of: "I guess I have to read it"; "Yes, I will"; "Yes, I will"; or "Yes, I think it's lousy." But all this, also, is an unattainable idea.—New York Times.

A Healthy Year

Canadians Were Healthy If Not Wealthy In 1930

We've been healthy, if not wealthy, during the year 1930, Dr. R. Vance Ward points out in the current issue of the Canadian Health Journal.

"As the vital statistics of various groups and communities for the year 1930 are completed, we are faced with an apparent contradiction of the cardinal principles of Industrial Hygiene," he says. "We have taught that high wages with their associated high standards of living have brought decreased mortality and morbidity, and that, conversely, low wages and poor environment have, whenever they have prevailed, carried in their train unfavorable health conditions. Yet everything points to the fact that 1930, a year of depression, was the healthiest year in the history of the North American continent had yet seen."

Indians Are Great Swappers

Trade Ponies For Automobiles and a Island Eat Trinkets

Story Indians on the Morley Reserve in Canada recently swapped a substantial profit in the subsequent sale of the ponies. Interesting though this incident is, it is not to be compared with the trade between Indians and white men, which gave up the island of Manhattan for beads and trinkets valued at approximately \$24.

RECOVERING AIR ADVENTURE INSTRUMENTS

Dr. Charles Kipfer, Swiss scientist (shown kneeling, right), is removing the precious instruments and clothing from the interior of the huge aluminum ball in which he and his associate, Professor August Piccard, ascended to the record-breaking height of 10 miles to make observations in the "stratosphere." Professor Piccard is the head of the "Institute of High Altitude" at the University of Zurich, Switzerland. The intrepid aerial explorers landed safely on a glacier near Ober Gurgl, Austria, in the Tyrolean Alps, where this picture was taken. The group surrounding the balloon is comprised of guides who went to the assistance of the explorers, thinking they were dead.

Vicious Operations Of Reparations And War Debts Delaying Economic Recovery

Establish Packing Plant

Saskatchewan Cattle For British Co-Operative Societies

Saskatchewan farmers are turning their attention more to the production of cattle for the British market. The Saskatchewan Co-Operative Livestock Producers' Association has signed an agreement with British Co-Operative Societies for the shipment of live cattle and it is understood that negotiations are under way to supply these societies with large quantities of frozen products. The Saskatchewan Co-Operative Society has purchased a building in Saskatoon and will immediately establish a packing plant. Modern machinery, with the latest equipment, will be used in meat-processing plant and a chilling and refrigerating system. It is expected that the plant will be in operation within two months.

The new packing plant of the kind established by a farmers' organization in the Province of Saskatchewan. In addition to the export market which is hoped to be opened, there will be a market for local business. The location has been selected with a view to utilizing the new Hudson Bay route to Europe via the port of Churchill. First shipments are expected to go forward about the first of September.

Trap Nest Competition

Results Of Alberta 100-Day Winter Trap Nest Competition

Results of the Alberta 100-Day Winter Trap Nest Competition of the Alberta Trappers' Association for the winter of 1930-31 have been checked and the official certificates issued. The three highest pons are those of Mrs. Ed. Kehoe, Mrs. George Zinger, St. Albert, Valley, and George Zinger, St. Albert. The flock of Mrs. Kehoe, who is a director of the Alberta poultry pool, was first with 80 per cent. of her birds taken and fully quantified for entry in the competition. The flock of Mr. Zinger, who is a director of the Alberta poultry pool, was second with 70 per cent. of his birds taken and fully quantified for entry in the competition. The flock of Mr. Zinger, who is a director of the Alberta poultry pool, was second with 70 per cent. of his birds taken and fully quantified for entry in the competition.

Nothing can be done about this in any direction, but when we return to meet the fact—without the consent and co-operation of the United States. The United States is the ultimate creditor of reparations and war debts. Germany is the ultimate debtor. The only way to get out of the difficulty is if all, is in the same currency in which all the war debts were originally contracted—in commodity. This is the only way to get out of the debts and pay them off. At the same time, the United States insists upon the maintenance of policies, domestic and foreign, which make it increasingly impossible to pay the debts at all. The only way to get out of the debts is to keep the commodities of the debtor nations to keep out the remittances of payments of the debts.

That is the inevitable process, and that is the logic of the present situation of world depression, at least as much of it—and it is a tremendous part—which depends upon international relations.

Germany has been paying reparations mainly in gold receipts.

The flavor, taste and color of the ham

has been criticized, but the lack of uniformity in the salt content

has been suggested.

It has been suggested that a milder and more uniform salt content, not above two per cent, be utilized in the making of the ham.

"The economic recovery of the world depends upon it," says a manifesto of the German government, and "we must make a new deal about reparations and war debts." This unless it can be shown to be more political and eyewash, is a grave and important statement, and no one can state that he believes it will attempt to show that it is mere politics.

"It borrows significance from the decree to which it imposes \$400,000,000 of new taxation on German people. And it fails in its intent to give the official communiqué given out about that weekend party at Chequers Court, where the prime minister and the foreign secretary of Great Britain met with the foreign minister of Germany, Chancellor Brüning and Foreign Minister Curtius.

What new taxation is described as "our last effort" to meet this world of human limitations turns out very often not to be anything like last efforts, and certainly there is no aid or comfort in the language of the old folk. Our old folk are probably extorting the last effort, but the present low condition of business and industry in the world is entirely referable to the vicious operations of reparations and war debts.

It is true that Germany really does approach at last the point where the reparations scheme is likely to break down altogether.

Nothing can be done about this in any direction, but when we return to meet the fact—without the consent and co-operation of the United States. The United States is the ultimate creditor of reparations and war debts. Germany is the ultimate debtor. The only way to get out of the difficulty is if all, is in the same currency in which all the war debts were originally contracted—in commodity. This is the only way to get out of the debts and pay them off. At the same time, the United States insists upon the maintenance of policies, domestic and foreign, which make it increasingly impossible to pay the debts at all. The only way to get out of the debts is to keep the commodities of the debtor nations to keep out the remittances of payments of the debts.

That is the inevitable process, and that is the logic of the present situation of world depression, at least as much of it—and it is a tremendous part—which depends upon international relations.

Germany has been paying reparations mainly in gold receipts.

WORLD HAPPENINGS
BRIEFLY TOLD

Today's Communists, supposedly including several important leaders, were executed at Hankow, China, by order of the government.

Allegations of dumping of Russian clothing in Canada resulted in demands that Canadian suit makers go.

Donald B. MacMillan, explorer, says he doubts if he will carry out his announced plans to fly from Labrador to London this summer.

Admiral of the Fleet, Sir Roger Keyes, hero of Zeebrugge and the man who won the Star of Dover during the Great War, has chosen his active career in the Royal Navy.

After years of dangers in the air, Antoine Paillard, aviator, died in Paris at the age of 35, following an operation on his appendicitis. He held many records.

The proposed rendezvous in polar wastes between the Graf Zeppelin and Sir Hubert Wilkins' submarine "Nautilus" has been called off because of the bad weather.

The report of Hon. Herbert Mifflin, Canadian minister to Japan, on trade possibilities in the Far East, will not be presented to the House of Commons.

Fred A. Sullivan, an embassymen, was officiated at the funeral of Queen Victoria and embalmed the bodies of President Grant and President Garfield, died at St. Louis, recently in his 88th year.

The British Mutual agency in New York recently received a shipment of \$3,000,000 in gold from Canada. The shipment is the first to be received from Canada since mid-winter.

Clayton Scott, chief pilot for the Canadian air transport, brought his Amphibian "plane down onto Elliott Bay, returning from Juneau with the record of having made the first non-stop flight to Alaska by night.

Shows Faith In Canada

Sum Invested In Her Industries Is
Over Six Billion

The impressive fact that the sum invested in Canadian industries is no less than \$6,350,000,000 is mentioned by Hon. G. Howard Ferguson, Canadian Minister of Trade, in Great Britain, in a foreword to the "Canadian Resources Supplement" published by the Financial Times of London, England. Still more impressive, he says, is the sum which has come in from outside sources as held in proportion of 61 per cent. by the United States and 35 per cent. by Great Britain.

He adds a few facts to indicate the "extraordinary resilience of Canadian industrial activities during the period of acute world wide depression." Mr. Ferguson records an amazing fact that 1,000 building contracts during the first ten months of 1930 totalled \$40,000,000. He says, "this hardly looks like fatalism or resignation to depression. Building contracts on this scale are as reliable an indication of Canada's prosperity as any that can be found."

A chair of geography has just been founded at Edinburgh University.

St. Lawrence Route Is Popular

The growing popularity of the St. Lawrence route from America to Europe has received another fillip with the placing in commission of the "Empress of Britain," said to be the largest ocean liner ever built for a passenger vessel afloat. On her first trip from England to Canada the "Empress of Britain" carried a very notable passenger list and made another step forward in the popularization of the St. Lawrence route to Europe.

Although not the largest passenger vessel ever launched—the "Empress of Britain" has a gross register of 42,500 tons, she nevertheless represents the latest developments in nautical architecture designed to insure comfort, safety and speed. Among innovations are a full-sized tennis court, a swimming pool, a court, long distance telephone in every first class apartment, and every room an outside room. Her speed will enable her to make the passage between Southampton and Quebec in about seven days.

The St. Lawrence route has the advantage of furnishing an ocean journey to Europe with the first thousand miles consisting of placid water enclosed in the safe harbor of the St. Lawrence. The new vessel will reduce the open-Atlantic period of the voyage to 3½ days. She is the property of the Canadian Pacific Railway Company, and may therefore be fairly claimed as evidence of Canadian enterprise and confidence in the development of Canada's future.

GOVERNMENT IS SUSTAINED IN VOTE ON BUDGET

Ottawa, Ont.—By a majority of 30, the budget passed the House of Commons, bringing to an end two weeks of debate. An amendment and a sub-amendment were introduced by the Liberal and U.P.A. ranks respectively. A crowded House approved the government's proposal by a vote of 102 to 72. Previously the U.P.A. sub-amendment had been defeated by 39, 70 members voting for it to 109 against.

Opposed galleries witnessed the three divisions. A good natured House indulged in songs, laughter and badinage while the somewhat slow process of registering each member's name was gone through.

When the final vote was taken, the Conservative supporters broke into loud applause and cheering. The House rapidly moved into committee of ways and means, in accordance with the usual procedure, and then on the motion of the prime minister rose and "reported progress."

Echoes of the election campaign in Quebec, and allegations by Hon. Alfred Duranau, Minister of Mines, that the "war crop" had been raised to secure seats; an attack on the budget by Hon. Fernand Rinfret, former secretary of state, who claimed that the budget was "a waste of money" and met defeat if he had submitted it to the people; advocacy of "salesmanship" to market Canada's wheat crop; and a declaration by E. J. Garlands, U.P.A. member for Bow River, in favour of abandoning the gold standard, featured continued debate on the budget.

The wheat situation was discussed by E. F. Willis, Conservative member for Morris, who emphasized the fact that Canada was the largest market in the world and that there was always a market for the best.

Hon. Alfred Duranau and Hon. Fernand Rinfret were hard-pressed to defend the budget, especially by the Conservatives, not the Liberals. Mr. Duranau was the man who raised the question of "war scare" election tactics which, he claimed, were responsible for sending a number of Liberal members from his province to seats in the House of Commons.

Rinfret threw the charge of initiating the war scare in Quebec. The "war crop" was raised by the Conservatives, not the Liberals. He assured the minister that if Conservatives dropped these tactics nothing more would be heard of "war scares" in the province of Quebec.

Pay Tribute To Heroes

School Children Decorate Graves Of Canadian Soldiers
Vancouver, B.C.—For the tenth successive year, thousands of school children gathered to deck with flowers the graves of Canadian soldiers in Shorncliffe cemetery.

"While we cannot help in honouring the heroes of the war, we can not extoll too highly the heroism, self-sacrifice and devotion, the instinctive motives that urge the manhood of the day to face inevitable misfortune and death," said Major J. W. Stainer, of Folkestone, addressing the school children.

Sea Sailors Give Display
Winnipeg, Man.—Delegates to the annual convention of the Navy League of Canada attended in a body the annual assault-at-arms of the Winnipeg Sea Cadets. More than 100 cadets performed for the visitors. Judges included Admiral W. O. Story, Lt. Commander H. G. Morris, Capt. T. V. Anderson and Capt. G. H. Gillegies.

Urg Construction of Railway
Vancouver, B.C.—Urging immediate construction of a railway connection between the Pacific Coast and the Peace River primarily as an emergency measure of national defence, relief and equalizing a continuing permanent relief through colonization, the executive of the On-to-the-Peace Association waited on Senator Gideon Robertson, Federal Minister of Labor.

Will Visit To Canada
Windsor, Ont.—Hon. G. Howard Ferguson, Canada's High Commissioner to Great Britain, will return to Canada on Aug. 1. His stay was slated at Kensington by Hon. Thomas L. Keenan, Ontario Minister of Agriculture. He remains in the Dominion for about six weeks, said Col. Kennedy.

Epidemic In Newfoundland

Five Hundred Cases Of Beri-Beri Disease Have Report

St. John's, Newfoundland.—As a result of a medical investigation of the south coast, especially in the town of Bonavista, Bay, it has been reported that a disease called beri-beri, which is similar to dropsy, is extremely prevalent among the inhabitants, an estimate of more than 500 cases having been made.

Dr. Mosher, a local health doctor, attributed the disease largely to the lack of vegetables in the diet. Following the tidal wave of last year, many people have been mainly occupied with reconstruction work and have not had time to cultivate their gardens. A bulletin giving instructions regarding dieting was being issued, while the worst cases have been brought to this city for electrical treatment.

Farmers Going North Are Making Mistake

Timberland Soil In Northern Saskatchewan Unlikely Bad Says Professor

Saskatoon, Sask.—Farmers of the dried-out south country who are moving to the northern regions of the north in making a living should, in the opinion of Professor A. H. Josel, head of the department of agriculture of Saskatchewan, be warned.

Professor Josel, an ardent follower of the movement which has been recently heard, said: "I don't like to see flocks of people going north. Timberland soil is bad soil, it is a rule, if ever, they settle on black grassland, soil in amongst the timber they may be slight."

SWEEPSTAKES BILL IS OPPOSED IN THE SENATE

Ottawa, Ont.—A vigorous attack on the Hospitals Sweepstakes Bill was launched by Sir George Foster.

The bill to make it legal for companies to raise revenue by conducting sweepstakes was introduced by the attorney-general of any province. He concluded by moving the bill be given a six-months' hold.

Up to the present about half of \$5,000,000 can be raised by the bill has been introduced and was held to now before parliament to authorize banks, loan, trust and insurance companies to invest in the securities is passed, no time would be lost in getting the scheme under way.

Government Seeking Services Of Expert

To Regulate Livestock Industry In Canada Says Hon. Robert Weir

Ottawa, Ont.—The department is seeking the services of an expert to reorganize the whole livestock industry in Canada. Hon. Robert Weir, minister of agriculture, in addressing a luncheon organized by the Holstein Breeders' Association. An attempt was being made to bring to Canada Dr. R. Orr, of Aberdeen, Scotland, described by Mr. Weir as a specialist in nutrition, and "a man to co-ordinate the whole livestock industry for its commercial advantage."

Referring to the Irish Hospital Sweepstakes, he called it "the greatest Irish industry." Everything went to chance, and neither experience, skill, nor merit, nor ability counted.

Senator Gilles said the majority of the people were opposed to the principle of the bill. Canada had had a disastrous period of stock gambling, and nothing would be gained by the introduction of a lottery gambling.

Senator Lacombe thought Sir George Foster's argument was correct, but that the bill should be passed. Money lost in gambling would not have gone to charity. He favored the bill because it transferred further rights to the provinces.

Senator Forke was opposed to the bill and seconded Sir George Foster's motion for a six months' hold. He sympathized with the object of the bill but not the method. Senator Damant felt the object of the bill was not worthy one but did not like the principle.

From Justice In East Vancouver, B.C.—Before a meeting of the Vancouver and New Westminster Trades and Labor Council, Hon. Gideon Robertson, Dominion Minister of Labor, said that, while the unemployment problem was serious in Canada, it was not so serious in the eastern part of the country than in the west.

Mr. Forke, president of the

Navigation Of Churchill

Port Now Reported To Be Free Of Ice and Work On Dock Nearly Completed

The Pas, Man.—Churchill's harbor is cleared of the final remains of the ice flow and it is possible now for craft to navigate along the river for 100 miles. Dredges will get along within a day or two. White whales and seals may be seen from the harbor daily.

The port was isolated nearly a week and was brought back and forth with the tide during the past few days. Ocean craft could now steam into the bay without danger, according to word received from here, but the port is not completed enough to handle ocean-going boats now.

The big dredging program at Churchill will be completed this season, but 2,000 yards of material will be moved under the direction of engineers there.

Work on the 2,500,000 bushel elevator is now three weeks ahead of schedule, and there is little doubt that it will be completed in time to handle the initial shipments of grain through Churchill this fall.

Farm Credit Proposal Outlined By Beatty

Half Of Five Million Capital Of Company Now Subscribed

Ottawa, Ont.—Within a few weeks the organization of the Dominion Agricultural Credit Company will be completed, Mr. W. Beatty, president of the Canadian Pacific Railway Company, told the House of Commons committee on banking and commerce.

Designed to assist farmers in Western Canada in marketing their own crops, the company will be capitalized and feel its way for the first few years. The idea, Mr. Beatty said, was derived from agricultural credit associations of the United States which had functioned with success on similar lines in Minnesota and other states.

Up to the present about half of \$5,000,000 can be raised by the bill has been introduced and was held to now before parliament to authorize banks, loan, trust and insurance companies to invest in the securities is passed, no time would be lost in getting the scheme under way.

Government Seeking Services Of Expert

To Regulate Livestock Industry In Canada Says Hon. Robert Weir

Ottawa, Ont.—The department is seeking the services of an expert to reorganize the whole livestock industry in Canada. Hon. Robert Weir, minister of agriculture, in addressing a luncheon organized by the Holstein Breeders' Association. An attempt was being made to bring to Canada Dr. R. Orr, of Aberdeen, Scotland, described by Mr. Weir as a specialist in nutrition, and "a man to co-ordinate the whole livestock industry for its commercial advantage."

If this bill was made law, it would be up to the provinces to regulate the industry, he said. He could see no reason why a bill should not be introduced to give the provinces power to regulate the industry.

Mr. Beatty said the bill would not extend to the sale of lottery tickets.

DEPUTY MINISTER RETIRES

Cattle Ships Needed

Not Enough Ships Available For Transports To Britain

London, England.—The suggestion of providing shipping facilities for import of Canadian cattle to Great Britain came up in the House of Commons. A member said that in view of the fact that large numbers of cattle were held in the country for shipment because there were not enough ships available for transport the president of the Board of Trade should bring the matter to the notice of ship owners who controlled ships lying idle in British ports.

G. M. Gillett, secretary to the overseas trade department, replied he was informed shipowners were not satisfied with the proposed scheme of transport of cattle because the extra expense needed to fit ships for this special purpose. He understood, however, that discussions were taking place between representatives of the shipowners and the shippers of the subject.

Better Times Ahead

Froster Swanston Looks For Greater Period Of Prosperity Than Ever

Saskatoon, Sask.—Commenting on the present economic situation, Mr. Swanston, with Prof. W. B. Babcock in New York, Professor W. W. Swanston, head of the department of economics at the University of Saskatchewan, said that "there is a great period of prosperity that the world has never known would follow the emergence from the present depression."

CHAMPION CHATTER

Published in the interest of the People of Champion and Farmers of the Surrounding Districts
GEO. L. DEPUÉ, Editor.

We just had to pass this on.
Bennett's News prints the following letter which an Oklahoman writes to his banker when pressed for payment:

"It is impossible for me to send you a check in response to your letter in quest. My present financial condition is due to the effects of Federal laws, state laws, county laws, corporations have been by me, brother-in-laws, mother-in-laws, and outlaws that have foisted upon an unsuspecting public. Although the financial laws I have been held down, held up, walked on, sat on, flattened and squeezed until I do not know where I am, what I am or why I am.

"Good Equipment Makes a Good Farmer Better."

Local and General

Born—At the Vulcan hospital on Saturday, June 13th, to Mr. and Mrs. Sam Kleio, a son.

T. R. Jopling is in the Holy Cross Cross hospital, Calgary, he is making satisfactory progress.

Miss Barrett, of McCullough Bros. staff is spending two weeks holidays at Calgary and other points.

About fifteen O.E.S. members and their husbands attended a card party at Vulcan on Tuesday evening.

Barney Hummel's residence is now located on its new site. It came in from the country in excellent shape.

Mr. and Mrs. Art Anderson of Calgary visited Mr. and Mrs. Harry Smith, en route on a two month's holiday in B.C.

Prospects of a crop in many sections of Southern Saskatchewan have been abandoned, rain coming too late to save them.

M. G. Clever has rented Guy Dow's town residence and upon the return of Mrs. Clever from Iowa, will take up his residence.

A number of ladies from Champion attended a meeting of the Royal Purple, held in the Elks' hall at Lethbridge on Tuesday.

Mrs. D. Chamberlain entertained on June 18th, in honor of her mother, Mrs. F. C. Aleck, the occasion being the latter's birthday.

Those big, purple and blue butterflies continue to make their appearance on the carnation hedges, making heavy inroads on the foliage.

Born—On Saturday, June 13th, to Mr. and Mrs. Jas. Muir, at Brantford, Ont., a daughter. Mrs. Muir was formerly Miss Thelma Williamson.

C. M. Granlin was a visitor here this week from Twin River. He was accompanied by Mrs. Granlin and they left here for Lomond to visit relatives there.

Ole Rungness was in town on Monday, the crew from Lake Keho being on their way to High River, where they will pull casing from the H.B.C. well abandoned there.

While playing ball at Carmangay, R. D. Farries had the misfortune to collide with a car while running to catch a fly ball, suffering considerable injury to his knee and other bruises.

Thursday, June 25, 1931

No. 37

"These laws compel me to pay a merchant's tax on capital stock tax, income tax, property tax, auto tax, gas tax, water tax, street tax, school tax, insurance, car tax, etc. The government has so governed my business that I do not know who owns it. I am unscrupulous, talked to, examined, re-examined, until all I know is that I'm supplicated for money for every known purpose, and the human race, and because I refuse to pay it and go out and beg, borrow and steal money to give away, am persecuted, harassed, boycotted, talked to, lied to, lied about, held up, held down, lied to, nearly ruined, etc., so the only reason I am clinging to life is to see what the hell is coming next."

Wm. Penn Motor Oils

"Still the best. Sister: What will we give father for a birthday present? Brother: Let's let him drive the car."

You must see that soft ball game between the like of Barons and Champion on July 1st.

The Mc-Dug Harvester Company, Ltd., will be from 10 to 15 cents on every bushel of grain. We will prove this with actual figures if you'll come in and talk it over.

Dr. and Mrs. Freeze are at home again. Doc is very much improved in health.

What is so rare as the stock order demand?

CHAMPION
ALBERTA

Don't miss "Rango" taken in the jungles of Africa (a real circus of wild animals). Young and old, will get a terrible kick out of this picture, Wed. night July 1st.

Examinations have been in progress in the public and high schools during the week, and will last until next Monday, bringing the long summer vacation very close.

Found—Crank for Ford car. Apply at Chisholm office.

World's Grain Exhibition and Conference

REGINA
1932

Farmers Will Win \$210,750.00 in Prizes

The World's Grain Exhibition and Conference offers Canadian farmers an opportunity to share in cash prizes amounting to \$210,750.00. Consisting of 50 cash prizes open to farmers of the world, are 1,700 cash prizes. A few of the major awards follow:

\$5,500 a first prize for 50 pounds of wheat, 30 pounds of barley, 30 pounds of corn, 30 pounds of oats, 20 pounds of flax, 20 pounds of clover.

With this splendid opportunity before them, Canadian farmers should keep a watchful eye on their crops. They should mark for special care those areas that appear most promising.

It should be understood that all seed and grain samples, if they are not otherwise specified, must be sent to the Secretary of the Exhibition. All exhibits must be received by the Exhibition authorities on or before March 1, 1932.

Of course, the advancement of Canadian agriculture will be the winning of World Championships in 1932 by farmers of Canada. Their seed and grain exhibit must demonstrate to the world the quality of Canadian grain.

Select the classes from the prize list most suited to the crop you grow, then select your samples from the best you have.

It is best to make your entry NOW.

Yours truly, Yours truly, in the hands of the Secretary at Regina

or before March 1, 1932.

Valuable information relating to the preparation of grain and seed for exhibit may be obtained by writing to the Secretary of the Provincial Committee for the World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Show what you grow and share what you know

On application, the Secretary, World's Grain Exhibition and Conference, Imperial Bank Chambers, Regina, will send you prize lists and regulations governing competitive

classes.
